From the Seven Steps Organization.

On behalf of the Seven Steps Organization, we are writing this letter of recommendation for Mr. William Harness. William has been, and still is continuing to work hard on changing his life around. He is a great asset to our program. He is always present, hardworking in participating in the class, and has a good sense of humor to help others laugh and lighten up. We are greatly encouraged by his motivation and progress. We pray that he will only continue to grow in the good works that he is putting forward once he gets out. He has a great sense of self awareness in that he knows his past mistakes and chooses willingly not to go that direction again. We wish him the best and continued success upon his release and we will continue to be supportive in his growth upon his release.
